

MI_Readiness

Preparation and Readiness Planning for OUAF Implementations

Meridian's MI_Readiness enables our client's success implementing Oracle Utility products

MI_Readiness is made up of three phases:

1 VISION

- Facilitate Vision
- Strategic Imperatives
- Success measures

2 DEFINITION

- System Readiness
- Operational Readiness
- Gap Assessment

3 ROADMAP

- Actionable Plan
- Holistic
- Quantified Priority

Meridian's methodology, MI_Readiness, is designed to enable our client's success implementing OUAF programs by quickly evaluating its readiness to undertake the effort. We assess the maturity of key capabilities then provide recommendations, in an actionable roadmap, to address before, during and throughout the program's life cycle.
