MERIDIAN
INTEGRATION

CYBER SECURITY SERVICES

The reality is that cyber threats are becoming more sophisticated every day, and utility companies are a prime target for threat actors.

Meridian's Cyber Security team has real-world experience with security standards based on the **National Institute of Standards and Technology (NIST)** and **Cybersecurity Framework (CSF)**. We can help you build strategic threat intelligence to protect your IT and OT assets.

Assess and Secure Private Information

- ☑ Managed Utility SOC Services
- ☑ Cyber Security Assessments (C2M2, CIS-CSC, NIST)
- ☑ Cyber Policy and Procedures Creation
- ☑ Cyber Program Design or Upgrades

> **"A Colorado energy company had to shut down 90% of its internal controls in January 2022 due to malicious cyberware that wiped 25 years of historical data"**

Build, Enhance, Protect!

Depending on where you are in your cyber journey, the Meridian Cyber Security team can help you enhance your current cyber program. For those just starting out, we can help you build your program from the ground up.

Meridian Integration Security Assessments:

1. Evaluate Current Cyber Posture
2. Identify Gaps and Prioritize Potential Threats
3. Deliver Remediation Strategies Based on Assessment Findings
