

Professional Services

Meridian Integration's Professional Services Team is Comprised of Industry and Technology Experts, with Specialized Training and Certifications Necessary for Leading your Projects, Regardless of Size or Complexity.

ADVISORY & CONSULTING

Meridian's Advisory & Consulting (A&C) service employ decades of utility and utility systems experience

- Accelerators based on years of industry experience and deep knowledge of OEW
- End-to-end partner from strategy, readiness, implementation, through support
- Right-sized, process effectiveness of your OEW ecosystem

The result is an improved customer experience, lowered operating costs, and faster time to market.

PROJECT MANAGEMENT

Meridian's Project Management Office (PMO) elevates your organization's ability to execute projects, increasing your confidence to complete initiatives through improved estimating, risk mitigation, staged planning, streamlined governance, and harmonized solutions. Our experts help you assess and improve the sustainability of your procedures, eliminate low value steps, and build training for your staff.

ORGANIZATIONAL CHANGE MANAGEMENT

As utilities continue to emphasize organizational transformation OCM's importance grows in proportion. Meridian's OCM team uses accelerators for transformation and continuity and their approach reflects this. Our deep roots in utility OCM afford us great opportunities to help your organization transform efficiently and effectively.
